PaTTAN is pleased to announce NEW literacy training series - Beyond the Dyslexia Pilot: Advancing and Applying Evidence-Based Practices at the Core. The work scope for this series will entail on-site coaching, consultation and technical assistance in partnership with PaTTAN literacy consultants and Intermediate Unit technical assistance consultants (TAC) for any member district(s) that would participate in this year-long training series.

This series will include a ten thousand dollar stipend for teams interested in applying evidence-based literacy practices during core reading instruction in grades K-2 and be based on the lessons learned from the state's Dyslexia Screening and Early Literacy Intervention Pilot Program. We are excited to apply what was learned in the state's Dyslexia Pilot to advance sound literacy practices across the commonwealth as a part of the legislative extension of the Dyslexia Pilot.

The comprehensive application process for LEA teams is a collaborative one that will require support/commitments from the LEA, IU, and PaTTAN. Those commitments are detailed in the attached application, available at this Link:

https://drive.google.com/file/d/15oxWiiC6yQNhrTf4-_tBpa9rHkT7Qjue/view?usp=sharing

We thank you in advance for your support and commitment to the science of reading and we are looking forward to collaborating with you on this meaningful endeavor. Please do not hesitate to contact me should you have any comments and/or questions regarding this application process.

If you have any questions, please contact Pam Kastner at 717-901-2257 or pkastner@pattan.net
